## Deck the Stalls!

We at The HoPo want you to make your mark. If you take a class at our shop you get to deck the stalls! We have an assortment of colorful markers to choose from. Please keep the language PG-13 and the pictures fully clothed. Last thing we need is little kids asking us about the birds and the bees!

### Erin Vroman~Smithwares

Sometime In my early 20's I awoke to find myself a businesswoman. Half a decade later, I awoke to motherhood. Having always been an artist, I decided to combine efforts in a new adventure and awoke Smithwares in October 2009. I love urban, raw, grittiness and I find it a fantastic contradiction when a child displays this aesthetic. I try to honor that in my wares.
